SUMMARY

I am a Junior Frontend Developer focused on HTML5, CSS3, JS and React. I have a great desire to learn and develop in this sphere as well as creating and inventing something new to make my own contribution in innovative industry growth. That is why I am looking for a company with common goals that's aimed at making both everyday life and business more productive and user-friendly. I am fast-learner seeking for upgrowth, responsible and ready for challenging tasks.

PROJECT EXPERIENCE

Luggio — Suitcase E-Commerce Store, [Link](#) [HTML, SCSS, JS]

A responsive e-commerce website for premium luggage and travel sets, built with vanilla HTML, CSS (SCSS), and JavaScript.

- Dynamic product catalog with filtering, sorting, and search
- Shopping cart with real-time counter update
- Product detail pages with size/color selection
- "You May Also Like" and "Top Best Sets" sections
- Fully responsive design (mobile, tablet, desktop)
- Local JSON data source
- No frameworks — pure vanilla JS

Role: solo project.

Instagram followers audit, [Link](#) [HTML, JS, React, Create React App, React styled components, keen-slider]

An application where you can check which Instagram accounts are not following you back. It has detailed step-by-step instructions on how to download the data provided by Instagram. In addition to the standard file selection, there is also a drag&drop feature.

Role: solo project.

WebStudio, [Link](#) [HTML, SCSS, JS, Parcel]

A website with a responsive layout. Role: solo project.

Build project on github, check for build errors and live page performance.

Donut Masterclass, [Link](#) [HTML, SCSS, JS, Parcel]

A website with a responsive layout. Role: Team Lead.

Build project on Github, check for build errors and live page

performance, set up a repository, add pictures for each screen size, add mixins and variables.

Phonebook, [Link](#) [HTML, MUI, JS, React, Create React App, JSON Web Token]

An application where you have to register to receive access to your personal phonebook. You are able to add, delete and find particular contact by name in a filter input. The possibility of further logout and re-login is also provided.

Role: solo project.
